A special solution based on Microsoft® Dynamics CRM

The Bing Maps Area Search for Microsoft Dynamics CRM 2011 and 2013 was developed to support companies using Microsoft CRM.

Optimal Integration

The Bing Maps Area Search is an integrated application which allows direct access to Bing Maps in Microsoft CRM. With Bing Maps Area Search you can get an overview of your customers within a circuit set by yourself.

Simply cooperate

This is a matter of enabling your employees to cooperate in the most easy way. Distance to the customer as well as journey times can be displayed. You can also integrate the list of the results into a marketing list.

Licensing

The Bing Maps Area Search is licensed per active Bing Area user.
